the Bible

I love

Jesus

Note: Pages one and two, three and four, etc are on the same page if you are getting this as a download to print yourself. Fill in the blanks for your child with a thick magic marker. Cut pages apart (i.e. cut page in half). Paste the two pages together with rubber cement. Feel free to add extra pages writing your own large words with colored thick magic markers.

Instructions for putting book together when you get through filling in the blanks for your child.

Buy a package of clear plastic protectors for 3-ring loose leaf paper.

Cut as many protectors in half as you need for this book.

Slip papers in back to back.

Punch an extra hole in the side and fasten sheets together with metal rings or rubber bands.

Second option

Laminate pages with clear contact paper. (If you want the pages to be more durable, put something stiff between the two pages you are putting back to back.) Connect pages together with another piece of clear contact paper (i.e. connect pages 2 and 3, 4 and 5, etc together) Lastly put an extra piece of clear contact paper from the front to the back sheet to strengthen the whole book.
